There are good articles regarding children and families and some great ideas for local activities!!!

Kindergarten Registration

Registration processes will begin at local Elementary and Charter schools in March. Please contact your choices now to be able to take a tour of their facility, observe a classroom etc. If you plan to test your child in to Kindergarten, now's the time to contact the district to find out the expectations and timeline.

Children's Safari is also beginning to think of our next year as well. Our Pre-school and Pre-Kindergarten classes are run exceptionally well with our Jags and Giraffes teachers. Each of our teachers have several years of experience, each, focusing specifically on the 3 - 5 year old age group. Children leaving our center are highly prepared for Kindergarten and some are even beginning to read!!! Our Pre-K follows a thematic monthly schedule using Scholastic Books curriculum. Activities and schedules are designed specifically to challenge the children to reach those milestones destined to help them succeed in Kindergarten. We tailor activities to meet the needs of our children but allow them the freedom to have fun as well. Your child will experience math, science, social studies, etc. Please feel free to stop in the rooms to speak to the staff, observe the class, and see for yourself what a wonderful group of teachers Children's Safari Learning Center as for this age group!!!
